

## Spotlight Select and INET Lists

Spotlight Select represent the subset of listed companies fulfilling higher listing requirements, for example using IFRS as accounting standard.

In INET Nordic we use “Lists” to set values representing Spotlight Select. For example, an Instrument listed on Spotlight Sweden can have List values:

- Spotlight Sweden or
- Spotlight Sweden, Spotlight Sweden Select

For marketing purposes (or display purposes) it becomes convenient to group instrument by list value.

Segment MIC	INET Segment Name	INET Lists – possible values
XSAT	Spotlight Sweden	Spotlight Sweden
		Spotlight Sweden, Spotlight Sweden Select
SPDK	Spotlight Denmark	Spotlight Denmark
		Spotlight Denmark, Spotlight Denmark Select
SPNO	Spotlight Norway	Spotlight Norway
		Spotlight Norway, Spotlight Norway Select
SPFI	Spotlight Finland	Spotlight Finland
		Spotlight Finland, Spotlight Finland Select

The List values are displayed in INET *Order Book List String*, example below:
